EDUCATION

Savitribai Phule Pune University

P.E.S. Modern College of Engineering, Shivajinagar

B.E., Computer Engineering

Average CGPA: 8.78 / 10

Pune, MH, IN

Jul 2020 – Jun 2024

S.B. Junior College, Shivoor

Higher Secondary Certificate

Percentage: 74.92%

Sambhajnagar, MH, IN

Aug 2019 – Mar 2020

TECHNICAL SKILLS

Programming Languages: C++, Java, Python, HTML, CSS, Javascript, Typescript, SQL

Libraries/Frameworks: React.js, Next.js, Tailwind CSS, Bootstrap, Node.js, Spring Boot, FastAPI, GenAI

Databases: MySQL, MongoDB, SQLite

Tools and Software: Git, GitHub, Postman, VSCode, IntelliJ, STS

WORK EXPERIENCE

Infosys | Specialist Programmer

Sep 24 – Present | Pune, MH

- Completed training in **Java Full Stack Development** with **React** and internal certifications in **Python** and **GenAI**.
- Built UI components, integrated RESTful APIs, and implemented robust unit and end-to-end tests using React.
- Researched and identified how **KnowHalu**, a **GenAI** solution for **hallucination detection**, can be applied to an internal project

ReactJs Developer Intern (Lead4Needs) | [Live](#) | [Certificate](#)

Feb 23 – Mar 23 | Remote

- Built versatile **UI components** with **ReactJS** and **Tailwind CSS**. Enhanced platform functionality and usability.
- Improved the platform by integrating **programming language tutorials**, and expanded educational content during the internship.

PROJECTS

Facebook Clone

Nov-2024

(Spring Boot Microservices, Spring Security, ReactJs, MySQL, Bootstrap, Typescript)

- Implemented JWT authentication, friends management, profile management, and post creation features.
- Used **Consul** for service registry and **API Gateway** for routing and request management.
- Integrated a **circuit breaker** for graceful failure handling.
- Used **microservices** architecture for the backend and optimized front-end with **Bootstrap**.

NextGen Concert Ticket Management System | [Demo](#) | [GitHub](#)

Feb-2024

(Rust, Next.js, Typescript, Tailwind CSS, Polkadot Blockchain, Spring boot, FaunaDB)

- Built a **decentralized** platform for secure ticket booking and event management.
- Designed and Developed the **responsive** and **attractive** frontend using **Next.js**, **Typescript**, and **Tailwind CSS**.
- Worked on the development and deployment of the **smart contract** using **Rust**.
- Integrated frontend with **REST-API** and Smart Contract which is built using Rust.
- Backend is built using **Spring Boot** and **FaunaDB** as a database.

Vehicle Service Management | [Demo](#) | [GitHub](#)

Apr-2024

(Next.js, Bootstrap, Spring Boot, MySQL)

- Built a system that Streamlines vehicle service operations for admins and service advisors.
- Developed the responsive and attractive frontend using **Next.js**, **Javascript**, and **Bootstrap** for both admin and service advisor.
- Integrated entire frontend with **Spring Boot** backend **REST-API**.
- Helped the backend team during the development of Backend REST-API in **Spring Boot** and used **MySQL** as a database.
